ABOUT

I am an enthusiastic and passionate individual with a keen interest in coding and problem-solving. A quick learner, always curious and eager to explore new realms of knowledge. Possesses exceptional communication skills, excelling in public speaking and leadership roles. A master of time management, adept at balancing multiple tasks efficiently. Possesses a sharp analytical mind, capable of approaching problem-solving with a unique perspective. Dedicated to continuous learning and innovation, always ready to tackle new challenges head-on.

PROJECTS

MOBILE PRICE PREDICTION

Designed a mobile price prediction project using XGBoost machine learning. Compiled a robust dataset from various e-commerce platforms like Flipkart and Amazon. Empowers consumers with accurate price estimates based on specific features, facilitating informed purchasing decisions. Showcases a solid understanding of machine learning principles and practical problem-solving through advanced algorithm implementation.

PERSONAL PORTFOLIO

Created a dynamic personal portfolio website with HTML, CSS, JavaScript, and Bootstrap. Utilized GitHub Pages for online deployment, showcasing skills and projects. Highlights commitment to professional presentation, serving as a hub for potential employers and collaborators to explore my capabilities.
